

MOTORQ

Associate Data Scientist (Intern)

About Motorq

Motorq is the leading connected car data and analytics software platform, revolutionizing insights from vehicle data for various industries.

Our vision is to be the globally recognized industry standard for connected car data and insights by enterprise customers and automotive OEMs. We currently provide actionable insights to enable enterprise-scale fleets and dealers to solve challenging problems at scale. Motorq is headquartered in the San Francisco Bay Area, with offices in Seattle, Bangalore, and Chennai.

The Role

You'll join a high-ownership team building analytics and ML systems on one of the largest connected car datasets in the world. The people who thrive here move fast, think from first principles, and use every tool available — including AI — to ship better work in less time.

Responsibilities

- Analyze large-scale vehicle data to generate insights, test hypotheses, and build logical narratives that drive product and business decisions.
- Design, implement, and maintain robust analytics and ML systems. You'll apply modern AI techniques (LLMs, RAG, agent frameworks) where they meaningfully improve outcomes — not because they're trendy.
- Own projects end-to-end: from scoping with stakeholders to delivering reliable, working solutions.

Qualifications

- Strong data analytics, machine learning fundamentals, and fluency in Python, SQL, and core data tools.
- AI-native work habits: you use LLMs and AI coding tools to 10x your output, whether that's writing code, exploring data, or prototyping faster.
- Self-driven with real ownership: you pick up ambiguous problems and drive them to completion without waiting for perfect specs.
- High pace, high iteration — prototype fast, learn fast, improve faster.
- Strong written and verbal communication.
- Exposure to distributed computing (Spark, etc.) is a plus.

Internship Details

- Stipend: ₹1.4 lakhs per month
- Duration: 2–3 months
- Location: Chennai

Potential PPO Offer

- Base: ₹22 lakhs
- Stock Options: Approximately ₹38 lakhs (spread over 4 years, value at time of joining; for the batch of 2026 — stock numbers will change for the batch of 2028)

- Total CTC: ₹60 lakhs

Benefits & Perks

In addition to compensation, full-time employees at Motorq (India) are supported with:

Health & Insurance	Group medical insurance, accidental insurance, life insurance, and OPD (outpatient) cover
Mental Health & Wellness	Employee Assistance Program (EAP) for confidential counselling support
Food	Free breakfast, lunch, snacks, and dinner at office
Sports & Recreation	Weekly badminton and cricket sessions for employees
Safety	Cab reimbursement for women employees staying back after 7 PM
Retirement Benefits	Provident Fund (PF), Gratuity, and NPS support
Learning & Development	Professional development schemes, and support for seminars, conferences, and skill-building programs
Compensation Structuring	Tax-saving benefits available through flexible CTC components
Other Support	Additional support extended on a case-by-case basis as needed

Note: Benefit applicability for interns (e.g., insurance, leave policies) may vary and will be clarified at the time of offer.
